

Alpha Deal for Beta's Founders

Disposal of Beta Engineering Services Ltd

Strategic Corporate Finance has acted as lead deal advisers to the vendors of Beta Engineering Services Ltd.

Ray and Val Billington established Beta in the late 1970's and since then it has established itself as quality manufacturer of CNC components to the automotive and sub-sea sectors amongst others.

Based in Goldthorpe, South Yorkshire, Beta boasts an impressive customer base including Ineos Chlor, Duve Components and Perry Slingsby Systems. Components manufactured by Beta can be found in many types of machinery and applications, including vehicles ranging from the Ford Mondeo to the latest Triton Deepwater remotely operated vehicles (ROVs).

Strategic Corporate Finance ran an auction process, which led to the selection of MBI team Hugh Davies and John Pritchard as the preferred bidder for Beta and also provided advice to the shareholders, throughout the sale process.
