

Acquisition Creates Dynamic Alliance

Corporate Acquisition of FX Computers Limited

Strategic Corporate Finance acted as lead deal advisers for Q4 Synergy Limited ("Q4"), a Reading based company, in connection with the acquisition of Nottingham based FX Computers Limited ("FX").

Q4 Synergy is an approved software reseller selling bespoke software. Q4 provides sophisticated remote monitoring of ICT hardware with software support and training to the education market.

With the acquisition of FX Computers, a ICT hardware supplier to the educational market, the combined entity is able to move forward in the provision of a total managed service solution to schools.

The combining of the two companies provides a platform for cross selling opportunities and synergies to strengthen both businesses.
