

Sale Engineered for Hillcliff

Disposal of Hillcliff Tools Limited

Strategic Corporate Finance provided lead deal advice in respect of the disposal of Hillcliff Tools Limited to Coburg Components Limited.

Sheffield based Hillcliff Tools is a leading distributor of workholding equipment within the engineering sector. The business, in its various guises and forms, has been closely involved in engineering and the tooling industry for 140 years.

Strategic Corporate Finance advised the vendors from the early stages of the transaction, finding a suitable buyer, leading the deal negotiations and project managing all aspects of the disposal through to legal completion.

Greg Barker of Strategic commented "We are very pleased to have helped John and Judith find the right buyer for their business. There is a clear fit between the two businesses and the deal provides good value for them."
