

Trans-Atlantic disposal

Lloyd International Translations sold to Welocalize Inc.

Andrew Coates and Greg Barker of Strategic Corporate Finance advised on the multi million pound disposal of Lloyd International to Welocalize Inc.

Lloyd International, based in Cheshire, is a leading provider of technical translation services, employing around 40 people. Welocalize, a private venture capital backed US company with over 400 employees, is a leading provider of integrated globalisation services.

The Strategic Corporate Finance team advised the shareholders of Lloyd International, carrying out extensive research to identify suitable buyers worldwide and running a sales process which resulted in a number of great offers for the company, including from US, European and UK companies.

Strategic Corporate Finance then negotiated the deal with Welocalize and saw the deal through to a successful completion.
