

# Fit-out Experts Ring the Changes

## Disposal of Ringland Construction Limited

**Sheffield based dealmakers Strategic Corporate Finance advised on the successful sale of Ringland Construction to MBI candidate Linda Green**

Ringland Construction is a Sheffield based firm specialising in the refurbishment of hotels and bars for Blue Chip customers including Marriott and Hilton. Ringland was established in 1991 by Harry Bell and Geoff Oakland and since then has earned a formidable reputation in the sector.

Strategic Corporate Finance ran an auction process, which led to the selection of Linda Green as the preferred bidder, and also provided advice to the shareholders throughout the sale process.

We are delighted to have advised the shareholders on the disposal of this very successful and well established company. Our disposal process identified Linda Green as a potential purchaser and we are convinced that she brings the necessary skills and sector experience to continue the growth and profitability levels currently being enjoyed by the Company.
