

Freight company travels the road to success

Acquisition of SHS Freight Services Limited

Strategic Corporate Finance acted as lead deal adviser in respect of the acquisition of SHS Freight Services Limited.

The company is based in Yorkshire and core trading activities include shipping and forwarding goods for customers in the steel industry. The transaction also included a substantial property acquisition.

The transaction took only three months to complete from negotiation to heads of agreement, including also a significant fundraising.

The deal enables our client to diversify his current business activities and, at the same time, provided an opportunity for the vendors to realise their plans for retirement.
