

# Rail Specialist Back on Track

## Acquisition of Bryar Group Limited

**Strategic Corporate Finance acted as lead deal adviser to International Products (UK) Limited, in the successful acquisition of Bryar Group Limited.**

The acquired business, which will now trade as "Tracman", is widely acknowledged as a leading designer and manufacturer of a comprehensive range of rail tools and track maintenance equipment for the railway industry. The company supplies high quality, reliable products to customers including London Underground and Network Rail.

International Products and Tracman, which are both based in Darnall Sheffield, now have a combined export market accounting for over 40% of sales, and with the availability of in house design facilities, prototype and bespoke machinery building service providing scope for further growth, the future is looking promising.

We are delighted to have advised International Products on this acquisition. The combined group is well placed to take advantage of the growth opportunities now available to them.
