

# Sale Sparks Change

## Disposal of Williams Electrical Services (Nth) Limited

**Williams Electrical Services, the successful Sheffield based electrical contractors, has been sold to a management team. The team comprised Duncan Syers and Christopher Corkhill, who already have interests in two other electrical contractors Gill & Wilkinson Limited and Hevertch Limited, and existing Williams contract managers, Tim Mappin and David Garrett.**

Strategic Corporate Finance, acting for the vendors, put together the deal and provided lead deal advice on the sale of this £4 million turnover company.

Williams has recently played a significant role in the Decent Homes Initiative, which involves upgrading local authority housing stock, as well as carrying out a lot of work for local hospitals and the University of Sheffield.
