

Buy Out Team Engineer Successful MBO

Management Buy-Out of AMH (Construction) Ltd

We acted as lead deal adviser in respect of the management buy-out of AMH (Construction) Limited ("AMH") by Bill Hammond and Will Tatler, the company's Operations Director and Financial Controller.

AMH is one of the leading providers of civil engineering project management services in the East Midlands.

AMH has carried out work for British Telecommunications Plc, its major 'blue chip' customer, for over 19 years. Other customers include Nottingham City Council, Lowery Limited and ABB Limited.

Bill Hammond and Will Tatler are an enthusiastic and ambitious management team who are keen to further expand and develop AMH. They intend to pursue several opportunities to grow the business, including pro-actively exploring known opportunities within the local authority market and tendering for additional contracts with newly won customers.
