

Strategic Corporate Finance advised the shareholders of Allied Glazing Systems Limited on a sale to a management buy-in team

Allied Glazing is one of the North of England's leading manufacturers and installers of architectural glazing.

Owners Carl Broadhurst and Alison Reed appointed Strategic to find a buyer in connection with their retirement plans.

The company was sold to an incoming management team, Shaun Joyce and Philip Goy.

Commenting on the deal, Strategic Corporate Finance director Greg Barker said:

"We are delighted to have advised Carl and Alison on the sale of their business, which allows them to retire straight away and enjoy the value they have created through many years of hard work."
