

Surveying a Good Deal

Management Buy-Out of Armson Darwent Shaw

Sheffield dealmakers Strategic Corporate Finance acted as lead deal advisers on the management buy-out of Armson Darwent Shaw.

The business was established over 20 years ago as a Quantity Surveying practice. Over the years it has developed a full range of Construction Cost Consultancy, Project Management and Building Surveying services for public sector bodies, private clients, architects and construction companies.

Strategic Corporate Finance negotiated the transaction, raised the finance and project managed the buy-out to a successful completion. Funding for the buy-out included facilities from the Royal Bank of Scotland and from UK Steel Enterprise.

The existing Sheffield team, including the original founders Richard Shaw and Tony Darwent, are in full support of the buy-out and will continue to provide a comprehensive and professional service to Sheffield office clients.
