

Firm Foundations Laid for Future Growth

Management Buy-Out of Grass Concrete Limited

We acted as lead deal adviser to Bob Howden on the management buy-out of Grass Concrete Limited from Myerscough Holdings Limited.

Grass Concrete is a UK based company dedicated to the promotion of environmental solutions to construction problems. Its unique Grasscrete paving system is supplied worldwide and is used for projects such as car parks, fire access roads and highway lay-bys as well as water related reservoirs and river embankments.

Bob Howden said "completion of the buy-out offers a tremendous future for the team here at Grass Concrete Limited and I am delighted to be taking this step forward. We have a product range that is unique and a commitment to growth".
