Disposal of Hallamshire Chemical Holdings Limited

We provided lead deal advice in respect of the disposal of Hallamshire Chemical Holdings Limited to the incumbent management team.

Hallamshire Chemical Holdings Limited comprises five trading divisions: J Preston (chemical wholesaler), Fiona Shaw (first aid kits), C Brown & Partners (fire resistant adhesive), Superanum (bottling plant) and Assay & Allied Trade Supplies (Assay Office chemical supplies).

We advised the vendor on all aspects of the disposal of his shares, being involved from an early stage in discussions and negotiations with the management team right through to legal completion of the disposal.
