

Building for the Future at Mayfayre

Management Buy-Out of Mayfayre Window Systems Ltd

We advised the buy-out team of Mark Loxley and Andrew Buntingon on the management buy-out of Mayfayre Window Systems Limited.

Mayfayre is based at Grange Lane Industrial Estate in Barnsley and manufactures aluminium architectural products for incorporation into new commercial office developments. Products manufactured and then installed by Mayfayre throughout the country include aluminium windows, doors, curtain walling, roof lights and atriums.

We are delighted to have advised the management team on this transaction.

Mark Loxley, the new Managing Director said "Our management team now has the opportunity to expand the business which will create additional jobs in the local economy. The strong financial resources now available to us gives us the ability to take the business forward with confidence to stimulate and develop future growth."
