

MBO Team Spring Into Action

Acquisition of Taylor & Jones Limited

We acted as lead deal advisers on the acquisition of Huddersfield based reamer manufacturer, Taylor and Jones Limited, by Andrew Eyre, Andy Bumford and Doug Maxwell.

Taylor and Jones was established in a small workshop in Huddersfield in 1920 and manufactures premium quality reamers which are now sold throughout the world with the Far East, USA and South American being particularly strong markets.

We are pleased to have assisted Andrew, Andy and Doug in completing this acquisition. The previous experience of the management team within this sector should ensure that Taylor and Jones goes from strength to strength.
