

Opportunity Knocks for Spring Specialist

Acquisition of the Tempered Spring Company Limited

We acted as lead deal adviser to Andrew Eyre and Andrew England, shareholders in Opportunity Group Holdings, in the successful acquisition of The Tempered Spring Company Limited.

Tempered Spring, a Sheffield business which can trace its roots back to 1895, is a traditional business manufacturing bespoke springs and other products for distribution throughout the world.

The acquisition will compliment Opportunity Group's existing portfolio of companies including Sheffield manufacturing businesses Seal Engineering, Locum Fine Steels and Turton Springs, which now have combined annual sales of over £25 million.

We are pleased to have advised Andrew Eyre and Andrew England on their latest acquisition. Tempered Springs is an excellent fit with other operations under their ownership, within Opportunity Group.
